### WORK EXPERIENCE

#### Modern Creativity Card EST

Web Developer

2020-2022

- Developed and maintained the frontend of the company's e-commerce website, ensuring a seamless and engaging user experience.
- Implemented responsive design principles and optimized website performance for various devices and screen sizes.
- Integrated payment gateway APIs into the e-commerce platform to facilitate secure and efficient online transactions.
- Managed and maintained the company's servers, ensuring reliability, security, and optimal performance.

### PROJECTS

#### Taskello

Kanban task management Web App

- Built the frontend interface with React.js, enabling users to interact with tasks through intuitive drag-and-drop functionality.
- Implemented real-time updates using WebSocket communication to provide seamless collaboration among team members.
- Developed the backend server using Node.js with Express.js, facilitating secure user authentication and data persistence.
- Integrated MongoDB as the database management system to store and retrieve task data efficiently.
